**MECHATON UA**

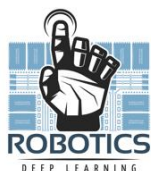

Mechaton – Your Ideas for the Future

Co-funded by  
the European Union

Mechaton UA is a platform for the comprehensive development of innovative thinking, creativity, and interdisciplinary collaboration among universities participating in the Erasmus+ KA2 international project “Universities – Communities: Strengthening Cooperation.”

The mission of Mechaton UA is to strengthen cooperation between universities and communities in pursuit of sustainable development, enhancing social cohesion, adaptability, resilience, and long-term prosperity across Ukraine.

Mechaton is an innovative edu-tech event that mixes a hands-on engineering marathon with a robotics and automation challenge — all aimed at creating practical, creative, and socially meaningful projects.

It's an event that inspires fresh thinking, sparks new partnerships, and shapes the future through the fusion of creativity and technology. ✨

📅 July 2025
