Prof. Konstantin Dimitrov
Technical University - Sofia
8, Kliment Ohridski, Blvd.
1000 Sofia
Bulgaria

Dear Prof. Dimitrov,

On behalf of the NATO Partnership and Cooperative Security Committee, I am pleased to inform you that, in the framework of the Science for Peace and Security (SPS) Programme, NATO has approved the project SPS G5511- "Cyber Defence for Intelligent Systems" which you have proposed in collaboration with

Prof. Timo Tiihonen, University of Jyväskylä (JYU), Jyväskylä, Finland
Prof. Moumen Darcherif, ECAM-EPMI, France
Assoc.Prof. Maria Golovianko, Kharkiv National University of Radioelectronics, Ukraine, Ukraine

To signify acceptance of this grant, all project co-directors shall initial each page of this letter and sign the acceptance statement at the end. An authorized representative of each co-director's institution must also sign the acceptance statement. In order that the project may begin without delay, electronic copies signed by each co-director and his/her institutional representative will be accepted provisionally; the completed original document must be returned to the NPD and an electronic copy submitted to the SPS Office within three months of the date of this letter.

In order for funds to be released, an intellectual property rights (IPR) agreement among the co-directors and their institutions must be submitted to the SPS Office along with the completed award letter. If the co-directors deem that such an agreement is not necessary for this project, a statement to that effect signed by all co-directors and representatives of their institutions may be provided instead.

Upon receipt of all necessary documents and signatures, an initial grant of EUR 33,410 (thirty-three thousand, four hundred ten) will be paid to your account at Technical University - Sofia.

An overall project budget of 244,000.00 EUR has, in principle, been approved by NATO and additional grants may be made up to this amount subject to available budgetary credits and to satisfactory project progress and reporting, as described in the SPS Multi-Year Project Management Handbook (MYP Handbook).

This grant and any further grants made to this project are to be governed by the rules set out in the MYP Handbook, the financial rules of Technical University - Sofia as identified in the project plan, and any additional rules included in this letter. While project funds are granted to Prof.Dimitrov through Technical University - Sofia they shall be used as described in the attached initial budget table, subject to modification as described in the MYP Handbook.

In order to begin the project promptly, a kickoff meeting must be scheduled among co-directors, in person or via teleconference, within 60 days of the receipt by the SPS Office of the required documents and countersigned letters. Please inform the SPS Office when this meeting has been scheduled as it will serve as the kickoff date for the project.

Correspondence and documents relating to this project should be sent to the SPS Office at sps_admin@hq.nato.int; please include the SPS grant number G5511 in the subject line.
All correspondence related to this grant must be addressed only to the SPS Project Contacts.

Yours sincerely,

Dr. Antonio Missiroli

North Atlantic Treaty Organization - Organisation du Traité de l'Atlantique Nord
Boulevard Léopold III - B-1110 Bruxelles - Belgique
cc: All Co-Directors, as listed above.
